

Hammond RITEC– Hand Held Boxes - RH Series

Designed as a “hand-held” electronic instrument enclosures, suited for mounting P.C.B.

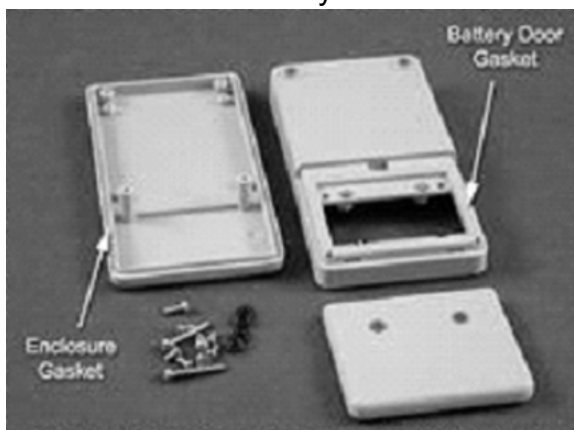

- Lap joint construction provides protection against dust and splashes.
- Designed to meet IP54.
- Removable front panel for easy modifications.
- RH3115 and RH3135 use self tapping screws.
- Assembled with M3 Philips machine screws, threaded into integral brass bushings.
- Both top and bottom halves contain P.C. board standoffs molded in.
- The two largest sizes include four self adhesive rubber feet for desk top use.
- Enclosures with battery door are available in - gasketed (IP65rated) & ungasketed.
- Material: Molded in a light grey general purpose ABS plastic with a light texture.
- Optional IR and Panels available.

Part Number	Dimensions (Base Only)
